

EduTrack CRM - Requirements Register

Functional requirements, non-functional requirements, business rules, and acceptance criteria for the fictional EduTrack CRM Reporting Automation case study.

Functional Requirements

FR ID	Module	Requirement	Description	Priority	Acceptance Criteria
FR-01	Lead Management	Capture Leads	System must log student enquiries with source, date, contact details, and program interest.	High	A new lead can be created and viewed with all required fields saved.
FR-02	Lead Management	Tag Lead Quality	Each lead must be tagged as Genuine, Accidental, Duplicate, or Not Relevant.	High	Lead quality saves correctly and appears in reports.
FR-03	Lead Management	Track Lead Stage	System must track lead stage through New, Contacted, Interested, Application, Enrolled, and Dropped.	High	Lead stage can be changed and history is retained.
FR-04	Lead Management	Flag Payment-Blocked Leads	Leads where the student is interested but blocked by loan or payment issues must be flagged separately.	High	Payment Blocked leads appear in CRM and daily report.
FR-05	Follow-Up	Assign Leads	Each lead must be assigned to a counsellor with a follow-up due date.	High	Assigned lead appears in counsellor queue.
FR-06	Follow-Up	Log Call Outcomes	Counsellors must be able to log the outcome of each follow-up attempt.	High	Outcome note, stage, and timestamp are saved.
FR-07	Follow-Up	Escalate Overdue Leads	Leads with no update for 3+ working days must be escalated to the Admissions Manager.	Medium	Lead appears under Needs Attention.
FR-08	Smart Priority Flags	Apply Smart Priority Flags	System must apply a priority flag based on quality, stage, payment readiness, loan status, and last follow-up date.	High	Correct flag appears for High Priority, Needs Attention, Payment Blocked, and Low Intent scenarios.
FR-09	Reporting	Auto-Generate Daily Report	System must compile and send a daily lead summary report to the manager at 6 PM.	High	Report is generated and delivery is logged.
FR-10	Reporting	Include Flag Summary in Report	Daily report must show a count of leads per flag type so the manager can identify problem cases quickly.	High	Report includes flag summary and payment-blocked count.
FR-11	Reporting	Show Lead Source Quality	Daily report must show lead volume and genuine lead share by platform.	Medium	Source quality table appears in report.
FR-12	Reporting	Show Program Demand	Daily report must show enquiry volume by program.	Medium	Program demand summary appears in report.

Non-Functional Requirements

NFR ID	Category	Requirement	Acceptance Criteria
NFR-01	Performance	Counsellor lead list should load within 3 seconds for normal daily use.	Lead queue loads within 3 seconds for up to 300 sample records.
NFR-02	Availability	CRM should be available during working hours with minimal downtime.	No more than 2 hours unplanned downtime per month in project assumption.
NFR-03	Security	Counsellors should only access leads assigned to them; managers can view all leads.	Role-based access verified during UAT.
NFR-04	Usability	Lead update form should be simple and quick to complete.	Counsellor can update lead stage, note, and flag fields within one screen.
NFR-05	Reporting	Daily report must be generated and sent at 6 PM on working days.	Report delivery timestamp is logged.
NFR-06	Auditability	Lead status changes and notes should retain timestamp and user details.	Lead history shows who updated what and when.

Business Rules

Rule ID	Rule	Logic
BR-01	Lead Assignment	Every new lead must be assigned to a counsellor within 1 working day of capture.
BR-02	Follow-Up Escalation	If no outcome is logged for 3+ working days, the lead is escalated to the Admissions Manager.
BR-03	Report Trigger	Daily report is compiled and sent automatically at 6 PM on every working day.
BR-04	Payment Blocked Flag	Lead is flagged Payment Blocked if stage is Interested and loan status is Rejected, Delayed, or Partner Issue.
BR-05	High Priority Flag	Lead is flagged High Priority if quality is Genuine, stage is Interested/Application, and payment readiness is High.
BR-06	Needs Attention Flag	Lead is flagged Needs Attention if no follow-up update has been logged for 3+ working days or due date has passed.
BR-07	Low Intent Flag	Lead is flagged Low Intent if quality is Accidental or Not Relevant, or awareness status is Not Aware.
BR-08	Lead Source Report	Daily report must include lead volume and share of genuine leads per platform.

Scope Notes

In scope: CRM lead capture, counsellor follow-up, Smart Priority Flags, lead source quality tracking, payment readiness fields, and daily reporting automation.
Out of scope: payment gateway integration, loan partner system integration, loan processing, visa tracking, university application portal integration, and full marketing analytics platform.
