

ADINA MOHAMMED

Business Analyst Fresher | Healthcare, ERP & CRM Portfolio Projects | Requirements · UAT · Process Mapping · SQL Basics

Chennai, India • adinamohammed9965@gmail.com • linkedin.com/in/adina-mohammed-muskan

PROFESSIONAL SUMMARY

Business Analyst fresher with 1.5+ years of client-facing business experience and three self-initiated BA portfolio case studies across Healthcare, ERP, and CRM domains. Practised in requirements gathering, AS-IS/TO-BE process mapping, user stories, business rules, UAT scenarios, data dictionary design, and reporting logic. Backed by BA, Agile, Excel, Power BI, and Data Analytics certifications. Recognised with the Best Executive Award at Jaro Education (April 2025). Seeking an entry-level BA or Junior Analyst Trainee role.

CORE BA SKILLS

Requirements: Gathering & Documentation · BRD / FRD Basics · User Stories · Acceptance Criteria · Use Cases · Business Rules

Process & Analysis: Stakeholder Analysis · Gap Analysis · AS-IS / TO-BE Process Mapping · Workflow Analysis · Process Flowcharts

Testing & Validation: UAT Test Scenarios · UAT Summary · Defect Tracking · Sign-off Notes

Data & Reporting: Data Dictionary · SQL Basics · Excel Analysis · Reporting Logic · Dashboard Understanding

Agile / Delivery: Agile Fundamentals · Scrum Basics · Kanban · MVP Scope Definition

BA PORTFOLIO PROJECTS

CareFlow — Smart OPD & Digital Patient Records System

Healthcare

Self-initiated BA Portfolio Case Study

- Analysed manual OPD workflows involving paper-based registration, duplicate patient records, token confusion, consultation delays, and disconnected lab/pharmacy coordination.
- Designed a TO-BE digital workflow covering one-time patient registration, OPD token routing, doctor consultation notes, lab/pharmacy coordination, and admin reporting visibility.
- Prepared BA artefacts including problem statement, stakeholder analysis, functional requirements, business rules, UAT scenarios, data dictionary, SQL reporting notes, and dashboard/reporting logic.

Key Skills: Healthcare Workflow · Process Mapping · FRD · UAT · Data Dictionary · SQL Basics

KAGE Fitness Studio ERP

ERP / Gym Operations

Self-initiated BA Portfolio Case Study

- Analysed manual gym operations where membership tracking, trainer allocation, PT sessions, renewals, payments, freelancer billing, and equipment records were managed in disconnected ways.
- Proposed an ERP-style TO-BE workflow connecting members, trainers, PT sessions, payments, renewals, freelancer billing, equipment tracking, and management reporting.
- Defined ERP module requirements, business rules, logical data model concepts, UAT-style validation scenarios, and reporting concepts to improve data consistency and operational visibility.

Key Skills: ERP Requirements · Business Rules · Data Modelling Basics · UAT · Process Improvement · Stakeholder Analysis

EduTrack CRM — Admissions Lead Management

CRM / EdTech

Self-initiated BA Portfolio Case Study

- Analysed manual admissions lead handling where inquiries, counsellor follow-ups, lead status updates, duplicate leads, and escalation tracking could become difficult to manage consistently.
- Designed a CRM-style TO-BE workflow covering lead capture, counsellor assignment, follow-up reminders, lead lifecycle status, duplicate lead handling, escalation logic, and reporting dashboards.
- Defined CRM MVP scope, business rules, lead status logic, follow-up cadence, and counsellor dashboard/reporting needs to improve lead tracking visibility.

Key Skills: CRM Workflow · Lead Management · MVP Prioritisation · Business Rules · Process Mapping · Gap Analysis

PROFESSIONAL EXPERIENCE

Senior Business Associate • Jaro Education, Chennai

Dec 2023 – Jul 2025

- Managed end-to-end lead pipeline with structured follow-up cadences, tracking lead status, drop-off points, and conversion metrics, which helped me understand CRM-style lead tracking and follow-up workflows.
- Communicated with prospective students and internal stakeholders to gather needs, address objections, and align on outcomes; built strong stakeholder communication and documentation discipline.
- Coordinated business activities across concurrent leads, deadlines, and teams, applying time management and process-thinking skills in a fast-paced target-driven environment.

★ Best Executive Award — Jaro Education, Chennai — April 2025
